RELEVANT WORK EXPERIENCE

NTT DATA Group Corporation

Technical Writer

Budapest | Hungary

Aug 2024 – present

- Provided documentation consulting to UNICEF Global Shared Services Center (Innovation Stream), documenting internal software products credited with an efficiency improvement of 45%.
- Authored **Microsoft Fabric** data warehouse documentation for **SAP and ServiceNow-sourced data**, including 12 **data-mart user guides**, a business **data dictionary**, and an operations library (ETL blueprint, inventories, SOPs, runbooks).
- Wrote concept and reference documentation for 15 **process automation bots** that reduce ticket handling time by 32 hours/week per agent.
- Built and maintained internal documentation portals for two engineering teams using **docs-as-code** workflows (OneDev + Sphinx), which are deployed on internal servers and used by ~140 case processors and analysts.
- Applied **T-SQL** to extract system data and **Python, reST, HTML, CSS, and JavaScript** to standardize workflow, reducing content preparation and update time by 30% and enhancing **portal UX**.

Grundfos Manufacturing Ltd.

Technical Editor

Székesfehérvár | Hungary

Aug 2023 – Nov 2023

- Partnered with a team to execute language checks on 100+ **I&O manuals** and **data booklets**; inspected content for compliance with **Style Guide, DITA** and other company standards
- Managed translation-API to ease the **localization** of content into 40+ languages
- Enhanced technical documentation for **language consistency** and thus reduced translation cost by ~ 30 %
- Applied and showcased **agile workflow** in a team of 15 people

Iyuno Media Group

Subtitle Editor and translator

Budapest | Hungary

July 2020 – Aug 2023

- Utilized **CAT tools** to cue, recut and edit 60,000+ AI-generated subtitles in **XML** to meet specific demands of 7 different US clients
- Optimised view rate of English-language media by adjusting content to reading speed requirements of 12 cps in compliance with Style Guide and local protocols
